

DERBYSHIRE AMATEUR SWIMMING ASSOCIATION

(Affiliated to Swim England East Midland Region)

County Championships 2023 TELEGRAM

In order to reduce the amount of paper used at the event and provide effective communications with coaches and swimmers we will be using the Telegram messaging app to provide notification of when start lists and results have been published, with links to the documents which are available on the DASA website.

Results and notifications of disqualifications will also be pushed to Telegram. There is also a separate channel where results of all heats will be published.

Telegram is a secure messaging application that works on mobile, tablet and laptop devices that have an active internet connection - details can be found here: <https://telegram.org/faq#q-what-is-telegram-what-do-i-do-here>

You will need to install Telegram on your device and create an account - you will need a mobile phone to receive a validation text but the same mobile can be used for multiple devices using the same account. The app and sign up is completely FREE. Telegram can also be used on laptops and tablets.

Telegram can be installed from <https://telegram.org> or just search for Telegram in your App Store. Once you have

Telegram installed then you will need to join the DASA Competitions Channel by following the below link, or with a QR Code scanner you can scan the code below to join (Not from within the app). The other channels that are available will also be advertised via the competitions channel.

<p>DASA Competitions Telegram Channel Most information will be published here</p>  <p>https://bit.ly/dasa-comp</p>	<p>DASA Announcements Channel Only important announcements</p>  <p>https://bit.ly/dasa-announce</p>
<p>DASA Heat Results Channel Heat results will only be sent here</p>
